

Protect the young and old - get vaccinated!

CHAN Yuen-han, Chairperson of the Women's Commission

Melissa PANG, Chairperson of the Family Council

CHAN Yuen-han : Hello. I am Chan Yuen-han, Chairperson of the Women's Commission

Melissa PANG : I am Melissa Pang, Chairperson of the Family Council

CHAN Yuen-han : As the current pandemic continues
I believe many women would like their family members
young or old to receive effective protection
Remember to make reservations for the elderly and children
in your family to get vaccinated
If you have elderly family members aged 70 or above
who are yet to receive COVID vaccinations
you may apply for the Home Vaccination Service for them
and register them for free door-to-door vaccination service
Come and apply for the service

Melissa PANG : We all hope each and every member of our family
especially the elderly and children can lead a happy and healthy life
To protect ourselves and our family
we must stay on guard and take necessary preventive measures
For peace of mind, it is very important to build a protective barrier through
vaccination
Do bring along the elderly and children to receive their jabs too

Melissa PANG and
CHAN Yuen-han : Protect the young and old - get vaccinated!
